

BEE POLLEN GRANULES

Bee Pollen is now recognised by scientists throughout the world as a rejuvenating food that can help promote youthfulness, build resistance to ailments, help boost recovery and provide dynamic energy. It is a natural supplement that helps to strengthen the immune system, counteract toxins, nourish the body, and maintain good health and vitality. It contains more than 25% complete protein with over 18 amino acids. Bee Pollen is also rich in vitamins, minerals, enzymes, co-enzymes, essential fatty acids, antioxidants and more.
