

CHOLESTINON

Nature's Gift Cholestinon from NewLife™ is a dietary supplement designed to help control cholesterol levels safely and naturally. Cholestinon is an all-natural form of red yeast rice prepared using a proprietary process to guarantee quality and consistency without the use of additives, preservatives or foreign ingredients.

Red yeast rice has long been used in China and Japan as a remedy for digestive ailments and poor circulation. More recently, red yeast rice has been found to reduce overall blood cholesterol levels and to improve the ratio of HDL ("good cholesterol") to LDL ("bad cholesterol"). A study conducted by the University of California – Los Angeles, School of Medicine found that people who took red yeast rice and maintained a low-fat diet reduced their overall cholesterol levels by an average of 40 points over a period of twelve weeks.

| BENEFITS

Various clinical trials have revealed the amazing effects of supplementation with red yeast rice:

- Lowers cholesterol
- Soothes indigestion
- Enhances blood circulation
- Reduces risk of heart attack

| KEY FEATURES

- Clinical trials have confirmed its safety and efficacy for daily and long-term use.
- Each capsule contains several bioactive ingredients that work synergistically to maintain a healthy cholesterol level for a healthier life.
- Vegetable capsules, suitable for vegetarians.
