

## COLLASTA

Collasta helps turn back the clock! Collasta is an anti-ageing complex, engineered for optimum health and beauty. It contains hydrolyzed marine collagen that provides skin its strength and elasticity, reduces inflammation, body pains and joint discomfort.

The restorative power of Collasta is further enhanced with a blend of age-defying super antioxidants, including astaxanthin, grape seed, green tea, pine bark, lycopene and mangosteen extract, as well as a prebiotic (Fructo-oligosaccharide). This proprietary formula fights all signs of ageing. The hydrolyzed marine collagen and antioxidants work together to combat what may be one of the main causes of most chronic diseases – free-radical damage.

### BENEFITS

- Firmer, clearer skin with improved tone and moisture retention
- Improved tissue regeneration, wound healing and injury recovery
- Healthy hair and nails
- Healthier immune system
- Reduced risk of heart attack and stroke
- Enhanced physical endurance, energy and vitality
- Stronger joints and connective tissues
- Improved eye and brain health
- Prevention of muscular degeneration and blindness due to ageing

### KEY FEATURES

NewLife™ Collasta:

- Contains stevia, fructose and fructo-oligo-saccharide (a soluble fibre and pro-biotic blend) as natural sweeteners, instead of the commonly used aspartame.
- Is free from all artificial additives and chemicals. It comes in an easy-mix powder form, instead of being packed in liquid form, that contains benzoic acid – a carcinogenic preservative.
- Is boosted with Vitamin C, Vitamin E and Vitamin B Complex.
- Is power packed with collagen and super antioxidant blend:
  - **Astaxanthin**, extracted from red algae (*Haematococcus pluvialis*), possesses an antioxidant capacity 40 times stronger than beta-carotene and 550 times stronger than Vitamin E.
  - **Grape seed extract** possesses excellent anti-inflammatory, anti-allergic, anti-cancerous and anti-microbial properties.
  - **Green tea extract** contains bioactive antioxidant compounds that are easily absorbed and highly effective at inhibiting lipid peroxidation and free radical damage.

## COLLASTA

- **Pycnogenol**, a pine bark extract - is effective in lowering blood pressure and improving glycaemic control.
- **Lycopene** may protect us from certain disorders such as cancer and coronary heart disease.
- **Mangosteen** is rich in phytonutrients that support multiple systems of the body.

### TESTIMONIES

"Before I started supplementing with NewLife™ Collasta, I've received lots of comments that my skin looked dry, dull and haggard. After 2 weeks of consuming Collasta daily, I noticed significant changes to my face. I look more radiant and the skin around my eyes is firmer. Even my husband noticed the difference in my skin. It's really amazing!"

**See Li Yung · Selangor, Malaysia**

"Before this, my skin was exposed to the weather because I travel a lot. This caused my skin to look dull and tired. After a month consuming Collasta, I noticed the texture of my skin improving and getting firmer especially in the areas around my eyes. My skin is now clearer and not as dry as before. Obvious wrinkles are now less visible and my joint pains have totally disappeared. In addition to all these remarkable changes, my vision is clearer. I can now read and drive without having to wear my glasses."

**Umi Kalsom Abd. Rahim · Kuala Lumpur, Malaysia**

"Last year, through my wife Sarah, I began drinking Collasta every night. I liked the taste as well as the cooling sensation it left and I looked forward to drinking it. A month later, I was out and I realized that I have forgotten to bring my spectacles. I realized then that the things I saw which were usually blurry, had now appeared clearer. I could read the road names from a distance as well as the bus number without straining my eyes."

**Bernard Lim · Singapore**

"My mom started taking Collasta in April 2011, starting with 2 packets a day for 15 days followed by a packet a day. I was surprised that after 3 days, the pain lessened and a week later, she could walk up the staircase without help. She felt improvement everyday and at the end of 2 weeks the pain was gone."

**Rina Chee · Kuala Lumpur**
