

GARLIC & PARSLEY

Garlic & Parsley oils carry remarkable healing properties and have been used for centuries to improve health and prevent disease. Garlic oil has shown to be helpful in increasing good cholesterol while improving blood flow and decreasing blood pressure. Parsley oil has powerful antioxidative properties which prevent free radical damage and the onset of many degenerative diseases. Particularly potent when combined as a dietary supplement, they contain substances that may help prevent cancer, improve cardiovascular health and strengthen the immune system.

BENEFITS

- Prevents common colds and fights infections
- Builds cardiovascular health
- Improves skin health and conditions such as acne and eczema
- Lowers triglyceride levels
- Enhances the activity of glutathione-s-transferase (GST) which is an antioxidant produced by the liver
