

KELP

Hair loss & greying, goitre, hormonal imbalance, fibrocystic breast & ovaries, abnormal metabolic rates and difficulty in weight loss/gain are all common symptoms of thyroid disorders. Iodine and other trace elements are essential in regulating healthy thyroid function. They also help to maintain proper function in the nervous system, muscles, brain development, oxygen utilisation, metabolism and a strong immune system.

Made from seaweed, NewLife™ Kelp is a great source of organic iodine and other minerals such as Calcium, Phosphorus, Copper, Potassium, Manganese, Sulphur and other trace elements vital for health.
