

## PROPOL-PLUS

A strong immune system helps to prevent cough & colds, bacteria and viral infections and many other ailments. It is the key to well-being and healthy living.

NewLife™ Nature's Gift Propol-Plus contains a combination of bee propolis and bee pollen. Bee propolis offers all-natural, powerful antibiotic action and bee pollen contains a vast amount of nutrients including proteins, vitamins, minerals, co-enzymes and enzymes necessary for optimal health. These natural immune boosters can do wonders for your health.

### BENEFITS

- Acts as a natural antibiotic
- A natural source that improves the immune system
- Soothes mouth sores and ulcers by reducing inflammation
- Helps to relieve skin disorders such as eczema because propolis is antibacterial and antifungal in nature
- Soothes burns, cuts, bruises, abrasions, and minimises scarring
- An ideal source of B vitamins for vegetarians
- High content of minerals and trace elements

### KEY FEATURES

- Is made in USA under unsurpassed standards of “state-of-art” manufacturing facility with GMP.
- Can be used orally or applied topically.
- For young children, capsules can be broken so no swallowing is necessary.
