

SPIRULINA

Containing more chlorophyll than wheatgrass and more protein than chicken, spirulina is a true superfood, which provides the body with an amazing array of nutrients and health benefits. Spirulina is also rich in Carotenes, Vitamin E, Vitamin B12 Iron, Vitamin B Complex, Calcium, Gamma Linolenic Acid (GLA) and the Nucleic Acids RNA & DNA along with Phycocyanin, that has been found to increase the survival rate of mice with liver cancer in laboratory experiments. Its soft cell walls make nutrients readily available for the body for all ages, especially suitable for young children or those who suffer from poor digestion.

Manufactured to the highest standard to preserve nutritional quality, NewLife™ Spirulina is a must-have for any family or individual.

BENEFITS

- Spirulina is a naturally digestible food that aids in protecting the immune system, in cholesterol reduction, and in mineral absorption
- Supplies nutrients that help cleanse and nourish the body
- An excellent slimming aid as it helps to normalise appetite
- Oxygenates cells
- A good food supplement for person with hypoglycemia or diabetes as it helps stabilise blood sugar levels
- Helps to protect the cells from harmful effects of radiation
- Improves vitality and conditions such as anaemia
- Protects the kidneys and liver from the side effects of drugs and chemicals
- Has antioxidative and anti-inflammatory properties

KEY FEATURES

- NewLife™ Nature's Gift Spirulina is sourced from a Japanese company, which for a quarter of a century, has been the largest Spirulina producer in the world.
- Guaranteed in nutritional values of natural antioxidants such as Beta-Carotene, Chlorophyll and Phycocyanin, vitamins, minerals, and easily digestible protein.
- Assurance of consistent product safety through an extensive series of strict quality and safety tests for every production.
- Not treated with irradiation, the process of which is not necessary for NewLife™ Spirulina as it is produced in strict controlled scientific environment that ensures that it is free from harmful microorganisms.
- Certified free from microcystin toxin, a common water borne cyanobacterial toxin.
- The same Spirulina was donated by our supplier in 1991 to victims of the Chernobyl nuclear fall out. It was soon recognized that Spirulina reduces the radiation level of the body.
